

Design

Structure

Linked to our history topic of holidays now and then, we will create our own mini seaside structure. We use different mechanisms for movement in our design.

RE

Pentecost/Serving

We will learn in detail the story of Pentecost – the feast of the Holy Spirit. We will discuss how we can spread the Good News.

PE

Mini Tennis

We will be developing our skills in movement, speed and direction. We will learn how to rally and strike the ball.

Daily Challenge

I will be setting a daily challenge on Class Dojo covering all aspects of the Year 2 Curriculum.

English

Flat Stanley

Our book focus for this term is Flat Stanley. We will be writing our own adventure story. We will then move on to create our own safety poster and write some instructions about how to save a life.

Please remember to listen to your child read daily and help them learn their spellings. It's so important. Thank you.

Year 2 Summer Term 1

Maths

Fractions
Position and Direction
Time
Weight, Volume and Temperature

Computing

Making Music

Science

Plants identification and structure
In this topic, we will learn about a variety of common plants and the lifecycle of a plant. We will also identify what seeds need to germinate and grow and what plants need to grow healthily.

Geography

Holidays now and then
We will be learning about changes within living memory, focussing on holidays in the past. We will learn about where and what kind of holidays people went on in the past by studying a variety of sources.

Music

Singing and
Performing Songs
